2008 BHP Billiton Mining Technology Award

Dear Tony,

Congratulations on winning the 2008 BHP Billiton Mining Technology award with Cooee Products's DustBloc; the innovative content of DustBloc setting it apart from the other nominees.

DustBloc helps address the industry wide issue of dust that directly affects the industries social responsibility and its license to operate.

Thank you for your contribution to the mining industry, we wish you well with DustBloc's commercialization and we look forward to new innovative products in the years to come.

Diego Hernández
President
BHP Billiton Base Metals
